

SUPPLEMENT 2 TO THE CALL OF THE 37TH OTDK BIOLOGY SECTION

AUTHOR CONTRIBUTION

I, the undersigned **Sámuel Szabó**, declare that I have participated in the following work processes for the paper submitted to the 37th OTDK **Conserved molecular and cellular features of the Islands of Calleja**:

Subtask	Extent of participation (on a five-point scale [#])
Optimalization of fluorescent labeling experiments on all studied species	5
Preparations and processing of examined tissues	5
Conducting all fluorescent labeling experiments used in the paper	5
Quantitative analysis of the results ^{m1}	4
Figures	5

Date: Budapest, 14. 01. 2025

For two-author TDK papers:

Student submitting the TDK paper (Szabó
Sámuel)
signature

Co-author (name)
signature

I confirm that the information contained in the
declaration is correct:

Supervisor (Prokop Susanne, HUN-REN Institute of
Experimental Medicine)
signature

#Explanation:

Please rate your extent of involvement in the work process on a five-point scale. The meaning of each value on the scale:

5 – After preparation, I completed the whole task independently, to the extent required for the project.

4 – After preparation, I completed more than half of the whole task independently, to the extent required for the project.

3 – After preparation, I completed more than half of the subtask independently, to the extent required for the project.

2 – After preparation, I completed less than half of the subtask independently, to the extent required for the project.

1 – I completed the subtask with continuous assistance to the extent required for the paper.

^{m1} My colleague Caroline Schumaker helped me in the quantification of the data for Figure 2.
