

6. Köszönetnyilvánítás

Mindenek előtt köszönettel tartozom témavezetőmnek, **Dr. Jakab Ferencnek** a munkámban nyújtott szakmai támogatásáért és a laboratóriumi háttért biztosításáért, mert nélküle ez a dolgozat nem készülhetett volna el. Továbbá köszönettel tartozom a Szentágotthai János Kutatóközpont Virologiai Kutatócsoportjában dolgozó összes munkatársamnak, Kemenesi Gábornak, Földes Fanninak, Oldal Miklósnak, Dr. Kutas Annának és Garai Kittinek mind emberi, mind szakmai támogatásukért.

Külön köszönet illeti **Dabing Zhang Professzort**, a Kína Mezőgazdasági Egyetem (Peking), Állatepidemiológiai és Zoonózis Laboratóriumának munkatársát, aki a másodlagos RNS struktúrák meghatározásában nyújtott pótolhatatlan segítséget.
