Köszönetnyilvánítás

Szeretnék köszönetet mondani Dulai Sándor témavezetőmnek munkám hatékony irányításáért, Pócs Tamásnak és Dulai Sándornak a minták rendelkezésemre bocsájtásáért. A laboratóriumi vizsgálatokban nyújtott segítségért Tarnai Rékát és Prónay Juditot, valamint az Eszterházy Károly Főiskola Növényélettani Tanszékét illeti köszönet.

Tételes szerzői hozzájárulás

Alulírott Radnai Zsófia a dolgozatban leírt munkafolyamatok közül a(z):

- extrémofil CBC-k só, H_2O_2 , paraquat és perklórsav kezelését
- kérgeken történt fluoreszcencia indukciós méréseket
- adatfeldolgozást

végeztem el.

Eger, 2015. 01. 05.

Radnai Zsófia
