

UNIVERSITY OF LEEDS

11th March 2015

Dear Sir/Madam,

I am writing to confirm Melinda Majoros has successfully completed an interdisciplinary six week team activity titled "Leaders Challenge".

Melinda along with four colleagues received a brief from the global engineering and management consultant firm Mott MacDonald; "managing disruptive changes; disruptive innovation in regards to implementation of a new IT system." The team had four weeks to conduct a site visit, consult the executive management team, and then work together to fulfil the brief. They presented their recommendations to the organisation and have received extremely positive feedback with the opportunity to implement and progress the recommendations over the summer period.

Melinda conducted the challenge in an extremely professional manner and has shown excellent communication and organisational skills, and a natural ability to work in a team; I wouldn't hesitate to recommend Melinda for future engagement activities and organisational projects. If you would like any further information please do not hesitate to contact me on the details below.

Yours sincerely,

Ms Joanne Lumb
