Dear Peter Stumpf,

Congratulations!

It is our pleasure to inform you that the above paper has been accepted for presentation in the 2015 IEEE International Conference on Industrial Informatics (INDIN 2015) to be held in Cambridge, UK, July 22-24, 2015. You are cordially invited to attend the conference to present your paper.

Please log into the manuscript submission website and consider the comments of the reviewers on your paper, which are intended to help you to improve the paper for final publication. <http://submit.ieee-ies.org/submit-cgi-bin/authorlogin.pl?event=INDIN15&papercode=CD-006394> Use your manuscript ID [REDACTED] and password [REDACTED].

Please prepare the final version of your paper taking into consideration the comments and the suggestions of the reviewers. Your final version might have to be checked to ensure that the critical comments were addressed and that the recommended changes were made. In addition, please note that it is expected for the final version of the paper to correspond in length and content to the version submitted initially, except for parts that might be added or modified to comply with the reviewers' or track chair's suggestions. It is considered unethical to alter the final version in ways that make it weaker than what has been originally approved by the reviewers.

Please try to update the reference list with relevant recent works found in IES journals and conferences. This will help readers appreciate your work from the view point of Industrial Electronics Society fields of interest.

INDIN conference policy requires that at least one of the authors of your paper must have paid the full regular registration fee for inclusion in the program. One full regular registration can be used for at most two papers.

Note that for the manuscript to be included in the program and the proceedings of the conference and to be sent to IEEEExplore, you must fulfill the following four conditions:

1. Upload of final version before the deadline of May 17th, 2015
2. Transfer of copyright to IEEE. This is done in the submission system AFTER you have uploaded final version
3. Registration of one of the authors using FULL registration and associating the paper at the time of registration. This needs to be done *BEFORE* May 17th, 2015
4. Presentation of the paper at the conference.

Instructions for preparing the final version will be available soon at:

www.indin2015.org

To help you submit an IEEE Xplore-compliant PDF file, a link to the IEEE PDF eXpress service

will be available at the same site.

When the program of the conference is established, we will inform you of the date and time allocated for your presentation, as well as the instructions for you to present your work.

Authors requiring a visa to enter UK must start the process for getting it as soon as possible. If you require an invitation letter in order for you to obtain the visa, you can ask for it at the time of registration following the instructions on the conference website.

On site accommodation at the conference venue can already be booked via the conference website.

We recommend booking as early as possible.

Please check the website regularly for these and other program updates. If you have any questions, please contact the conference secretariat at fstprojects@anglia.ac.uk

Congratulations again on this achievement!

We look forward to welcoming you in July 2015 in Cambridge, England, for an exciting INDIN 2015.

Sincerely,

Marcian Cirstea, Luis Gomes, General Co-Chairs
Paulo Leitao, Peter Palensky, Technical Program Co-chairs
IEEE INDIN 2015
