Sept 12, 2013

To Whom It May Concern:

David Deritei (Passport nr. 052087147, CNP 1910114125778) is a MSc student at the Physics Department of the Babes-Bolyai University in Cluj-Napoca, Romania. He is working as a research technician in my team in the project entitled „Improving scientific evaluation through analysis of scientific networks”, financed by the Romanian UEFISCDI (Executive Unit for Financing Higher Education, Research Development and Innovation), project number PN-II-PT-PCCA-2011-3.2-0895.

In the period October 15 – November 12, 2013 David Deritei together with my postdoctoral researcher Dr. Robert Sumi will be traveling to the USA, to the Beth Israel Deaconess Medical Center at Harvard Medical School in Boston, to visit the research group of Dr. Erzsebet Regan. Dr. Regan is also a physicist working in network sciences and she is involved in interdisciplinary projects related to biology and medicine. She has agreed to accept my team members to visit her to learn new methods and computational techniques related to networks and gain experience, which can be truly useful later on working in my project.

The traveling costs of David Deritei (flight, accommodation, etc.) will be covered from the research grant PN-II-PT-PCCA-2011-3.2-0895.

Sincerely Yours,

Dr. Maria Magdolna Ercsey-Ravasz
