

**Temperature- and Pressure-Dependent Kinetico-Mechanistic
Studies on the Formation of Mixed-Valence
{(Tetraamine)CoIIINCFelI(CN)5}– units**

Journal:	<i>Journal of Coordination Chemistry</i>
Manuscript ID:	GCOO-2014-0794.R1
Manuscript Type:	Original Paper
Date Submitted by the Author:	08-Apr-2015
Complete List of Authors:	Martínez López, Manuel; Universitat de Barcelona, Química Inorgànica Alcázar, Laura; Universitat de Barcelona, Química Inorgànica Vázquez, Marta; Universitat de Barcelona, Química Inorgànica; Universitat de Barcelona, Química Inorgànica Lente, Gábor; University of Debrecen, Inorganic and Analytical chemistry Bogdándi, Virág; University of Debrecen, Inorganic and Analytical chemistry
Keywords:	Redox, Mechanisms, Mixed-valence, Kinetics
