To whom it may concern

Dear Sir/Madam,

With this letter I would like to express my strong support to the application of Bruno Vermes and highlight his current achievement in the MSc programme. Bruno was selected for our programme in a highly competitive process and started his courses in October 2016. He will graduate after completing the Research Project in September 2017.

As the programme director, lecturer in the programme, and Bruno's Research Project supervisor, I would like to emphasize that Bruno's current progress is exceptional. His current score exceeds 80% which is an outstanding result in the standards of the University of Bristol. At the moment, Bruno demonstrates the best performance in his cohort. There are still other assignments coming (such as course works, exams, and research project dissertation) and I am confident that Bruno will accomplish them with excellence.

Should you have any questions or need further help, please do not hesitate to contact me.

With best regards,

Dmitry Ivanov, 21.04. 2017
