Subject: Software and Systems Modeling - Decision on Manuscript ID SOSYM-15-00001899
Sent by: onbehalfof+Bernhard.Rumpe@sosym.org@manuscriptcentral.com

31-Mar-2015

Dear Dr. Varro:

Manuscript ID SOSYM-15-00001899 entitled "Formal Validation of Domain-Specific Languages with Derived Features and Well-Formedness Constraints" which you submitted to the Journal of Software and Systems Modeling, has been reviewed. The comments of the reviewer(s) are included at the bottom of this letter.

The reviewer(s) have recommended publication, but also suggest some minor revisions to your manuscript. Please carefully consider these comments when revising your paper.

Please describe the changes and responses to the reviewer comments, in detail, in a separate file. You may also create a version of your revised manuscript that highlights the changes within the document by using the track changes mode in MS Word or by using bold or colored text.

When you have completed your revisions and are ready to upload your new manuscript, please log into <https://mc.manuscriptcentral.com/sosym> and enter your Author Center, where you will find your manuscript title listed under "Manuscripts with Decisions." Under "Actions," click on "Create a Revision." Your manuscript number will have been modified to denote a revision (please see also "How to proceed" instructions below).

During the revision process please upload the following files (at step 6: "File Upload"):

- the revised manuscript as pdf
- the file containing detailed descriptions of the changes and responses to the reviewer comments, and optionally a version of the revised manuscript that highlights the changes you have made
- an archive with the sources of the paper (either in tex- or word-format)
- short biographies and photos of at least 300dpi of each author

Because we are trying to facilitate timely publication of manuscripts submitted to Software and Systems Modeling, your revised manuscript should be uploaded as soon as possible. If it is not possible for you to submit your revision before 20-May-2015, we may have to consider it as a new submission.

Once again, thank you for submitting your manuscript to Software and Systems Modeling and I look forward to receiving your revision.

Sincerely,
Prof. Bernhard Rumpe
Editor in Chief, Software and Systems Modeling
Bernhard.Rumpe@sosym.org
