

Helsinki Summer School in Cognitive Neuroscience 2016 (HSSCN 2016) Course certificate

Viktória Roxána Balla has successfully completed the HSSCN 2016 in the University of Helsinki on August 11-17, 2016.

The course program (4 ECTS = 108 hours) consisted of

- 1) lectures on principles of various brain research methods;
- 2) lectures which covered brain functions and recent findings in the framework of neuroplasticity, with a focus in music processing;
- 3) demonstrations on modern brain imaging techniques such as electroencephalography (EEG), magnetoencephalography (MEG), transcranial magnetic stimulation (TMS), and functional magnetic resonance imaging (fMRI);
- 4) poster session;
- 5) group discussions;
- 6) learning diary;
- 7) pre-course reading material chosen by the lecturers.

Helsinki, September 7^h, 2016

Mari Tervaniemi, PhD
Research Director

Katri Wegelius, PhD, Coordinator
Doctoral Program Brain & Mind

Organizers:

Research Director Mari Tervaniemi and Professor Teija Kujala,
Cognitive Brain Research Unit Institute of Behavioral Sciences & Cicero Learning,
University of Helsinki, Finland / Doctoral Program Brain & Mind (B&M)
