

Letter of notification

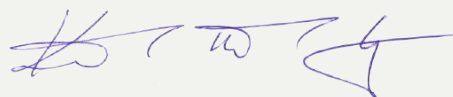

I hereby certify that Martin Janos MAYER and his co-authors (detailed below) have submitted two full papers to the 5th International Youth Conference on Energy 2015 (taking place from 27th-30th May 2015 in Pisa, Italy), which have been accepted after the review process. In case of presentation the articles are to be published in IEEE Xplore. In the review process each paper is revised and recommended by two members of the Scientific Board.

Martin Janos MAYER's papers:

1. Comparison of different solar energy utilization methods: photovoltaic systems and solar thermal power plants
/M. J. Mayer/
2. Investigation of Geothermal Power Generation on Abandoned Hydrocarbon Wells
/A. Schroth, V. Nyerges, M. J. Mayer/

The results of the review process show that the two papers represent high professional standards and provide valuable new results on their field.

Budapest, 14th April 2015
