Brief description of the Completed Group Study Trip:

The support of young researchers in the Ibero-America Center was important to the Institution, this is why we visited and did reseraches at the National Library of Sweden. In Hungary the Swedish documentations and books are not available to this topic and not so many researchers are using Swedish aspects in the researching of Ibero-America. We found new publications and relevant hand written documents. All of us found new information for our various topics. We also used the wide range of databases what we could reach on the computers. We are planning to use the results of this research trip in our thesis. If that is possible, int he future we would like to publish this research results.

Brief description of the Completed Group Study Trip:

The Ibero-America Center at University of Pécs would like to contact and work together with other Ibero-American institutions all around the world. This is why we choosed the Institute of Latin-American Studies at University of Stockholm, because we do not had any relations with this university before We introduced our, the Iberoamericana Quinqueecclesiensis and our university and our research topics as well. The Institute offered to attend at research seminars and lectures, which was a great opportunity for us. We also could participate in different programs of the Institute, for example open lectures or presentation of visiting professors. In the free time we did some researches in the Institute's library. With this visit we achieved a new formal partner of our research group and we hope in the future we can continue the cooperation.
