Brief description of the completed short term study program:

The reserach's topic was the 1956 Hungarian refugees and how the America government and American Hungarians handled their situation. I found hundreds of documents connected to the Hungarian Refugee Relief, which organization helped to settle down Hungarian refugees in the U.S. I also found and I going to use American newspaper articles from this time period as well. Now I just digitized the documents, but at home I going to analyze them and use them in my thesis. So many documents helped to prove my hipothesis about the selecting method of the American officers from the Hungarian refugees.
