Dear Tamas,

Thank you for your application to join the Philological Society, and for your membership subscription payment. I am delighted to welcome you as a student associate member. Your membership number in the Society is 1869, and I should be grateful if you would quote this number in any correspondence with the officers of the Society.

You are eligible to remain a Student Associate for a maximum of five years, after which time you are invited to become a Full Member. If you cease to be a student before the end of this period, e.g. by taking up an academic post, you will be eligible to become a Full Member from that time. The annual subscription for Full Members is currently £10.

As a member you will receive, without further payment, the Transactions of the Philological Society from 2012 onwards, and any special publications as they appear. Please notify me as soon as possible of any change of address.

Details of the Society's meetings and publications can be found on its website:

<http://www.philsoc.org.uk>

With best wishes,
Kathryn
