**SH_7_2_20 workshop
28 to 30 September 2011
Hungary, Szeged**

Guest house of HAS, Szeged, Somogyi u. 7.

September 30, Friday	
9:30	Dr. Radomir Zikic Institute of Physics, Belgrade, Serbia <i>NanoTools for ultrafast DNA sequencing</i>
10:20 	Laurent Bernard Laboratory of Physics of Complex Matter, EPFL <i>Chemical Vapor Deposition of Graphene by Oxidative Dehydrogenation Chemistry</i>
10:40	Coffee break
11:00	SH 7 2 20 administration meeting
11:00	Sightseeing for visitors
12:30-	Lunch
14:00	Dr. Ivanka Milosevic Faculty of Physics, University of Belgrade <i>Structure, stability and mechanical properties of coiled CNTs</i>
14:50 	Dóra Fejes Department of Applied and Environmental Chemistry, University of Szeged <i>Electron microscopy investigations of catalytically produced coiled carbon nanotubes</i>
15:10 	Tibor Szabó Department of Medical Physics and Informatics, University of Szeged <i>Interaction between photosynthetic reaction centers and ITO</i>
15:30	What NEXT? – Closing
