Dear Gyula,

We will be very happy to include the paper you have sent us (by Burcsi and Nagy) in the first issue of EJGTA.

You have already sent us your report on the paper but I cannot find any email address.

Could you please inform the authors that we are accepting their paper and ask them to revise it according to your report?

Also, please ask them to use the EJGTA template (attached) and send us the files (Latex, pdf, any figures) of the final version of their paper.

With best regards,
Mirka and Edy
