6. THE HUNGARIAN HIGHER EDUCATION SYSTEM

Credit system

The obligatory use of the ECTS compatible credit system was introduced in September 2003, but several higher education institutions have already been using it since the middle of the 1990s. According to the governmental decree on the introduction of the credit system one credit corresponds to 30 hours student workload. The minimum number of credits for a college-level degree is 180, for a university-level degree is 240, for a further specialisation degree is 60 while for the doctoral degree it is 180.

System of assessment

The assessment of knowledge may occur, generally in five grades: excellent (5), good (4), satisfactory (3), pass (2), and fail (1) or with the classification: excellent (5), satisfactory (3), fail (1).

Academic year

In general, the academic year of higher education institutions consists of two semesters, namely the autumn and the spring semesters. The autumn semester lasts generally from the beginning of September until the end of January. The spring semester lasts from the beginning of February until the end of June. In general, both semesters include a 15-week period for lectures, seminars and practical work and a 6-week examinations period.
