

**P2/91**

**The role of hematopoietic Syk tyrosine kinase in ischemic brain injury**

Eszter Császár<sup>1</sup>, Tamás Németh<sup>2,3,4</sup>, Bernadett Martinecz<sup>1</sup>, Attila Mócsai<sup>2,3,4</sup>, Ádám Dénes<sup>1</sup>  
<sup>1</sup>Institute of Experimental Medicine, Hungarian Academy of Sciences, Laboratory of Molecular Neuroendocrinology, Budapest, Hungary; <sup>2</sup>Semmelweis University School of Medicine, Department of Physiology, Budapest, Hungary; <sup>3</sup>MTA-SE, "Lendület" Inflammation Physiology Research Group of the Hungarian Academy of Sciences and the Semmelweis University, Budapest, Hungary; <sup>4</sup>MTA-SE, "Lendület" Lymphatic Physiology Research Group of the Hungarian Academy of Sciences and the Semmelweis University, Budapest, Hungary

**P2/92**

**Altered expression of insulin-like growth factor binding protein 3 in the maternal brain**

Andras Leko<sup>1,2</sup>, Arpad Dobolyi<sup>1,2</sup>  
<sup>1</sup>Semmelweis University, Laboratory of Neuromorphology, Department of Anatomy, Histology and Embryology, Budapest, Hungary; <sup>2</sup>Hungarian Academy of Sciences and Eötvös Loránd University, Laboratory of Molecular and Systems Neurobiology, Institute of Biology, Budapest, Hungary

**Theme 6. - P2/93 – P2/109**  
**Cognition and behavior**

**P2/93**

**Implicit sequence learning in temporal lobe epilepsy patients with bilaterally implanted foramen ovale electrodes**

Karolina Janacsek<sup>1</sup>, Márta Virág<sup>2</sup>, Lóránd Erőss<sup>3</sup>, Dániel Fabó<sup>4</sup>, Dezső Németh<sup>1</sup>  
<sup>1</sup>Eötvös Loránd University, Psychology, Budapest, Hungary; <sup>2</sup>OKITI, Functional Neurology Group, Budapest, Hungary; <sup>3</sup>OKITI, Functional Neurology Group, National Clinical Neurology Institute, Budapest, Hungary; <sup>4</sup>OKITI, Epilepsy Centre, Dept. of Neurology, National Institute of Clinical Neurosciences, Budapest, Hungary

**P2/94**

**Competition between frontal lobe functions and implicit sequence learning - evidence from the long-term effects of alcohol-dependency**

Márta Virág<sup>1</sup>, Karolina Janacsek<sup>2</sup>, Dániel Fabó<sup>3</sup>, Dezső Németh<sup>2</sup>  
<sup>1</sup>OKITI, Epilepsy Centre, Budapest, Hungary; <sup>2</sup>Eötvös Loránd University, Psychology, Budapest, Hungary; <sup>3</sup>OKITI, Epilepsy Centre, Dept. of Neurology, National Institute of Clinical Neurosciences, Budapest, Hungary

**P2/95**

**The relationship between sleep and memory in childhood**

Zsófia Zavecz<sup>1</sup>, Eszter Csábi<sup>2</sup>, Karolina Janacsek<sup>1</sup>, Pálma Benedek<sup>3</sup>, Dezső Németh<sup>1</sup>  
<sup>1</sup>Eötvös Loránd University, Institute of Psychology, Budapest, Hungary; <sup>2</sup>University of Szeged, Institute of Psychology, Szeged, Hungary; <sup>3</sup>Heim Pal Children Hospital, Sleep Laboratory, Budapest, Hungary

**P2/96**

**Transcranial direct current stimulation over the right vs. left prefrontal cortex differentially affects consolidation of implicit statistical learning**

Csenge Török<sup>1</sup>, Kata Horváth<sup>1</sup>, Karolina Janacsek<sup>1</sup>, Andrea Antal<sup>2</sup>, Dezső Németh<sup>1</sup>  
<sup>1</sup>Institute of Psychology, Eötvös Loránd University, Department of Clinical Psychology and Addictology, Budapest, Hungary; <sup>2</sup>Institute of Medical Psychology and Medical Sociology, University Medical Center, Georg-August University, Department of Clinical Neuropsychology, Göttingen, Germany

**P2/97**

**The effect of empathy of restrained stress on learning and spatial memory of rats**

Mina Ghorbani<sup>1</sup>, Shahzad Tahmasebi<sup>2</sup>, Naser Naghdli<sup>3</sup>, Fazlollah Bagherzadeh<sup>4</sup>  
<sup>1</sup>University of Tehran, Department of Sport Psychology, Tehran, Islamic Republic Of Iran; <sup>2</sup>University of Tehran, Department of Mmotor Behavior, Tehran, Islamic Republic Of Iran; <sup>3</sup>Pasteur Institute of Iran, Department of Physiology, Tehran, Islamic Republic Of Iran; <sup>4</sup>University of Tehran, Department of Development and Motor Learning, Tehran, Islamic Republic Of Iran

**P2/98**

**Age-dependent changes of theta oscillatory response to reward and punishment**

Zsófia Kardos<sup>1,2</sup>, Brigitta Tóth<sup>1,3</sup>, Roland Boha<sup>1</sup>, Bálint File<sup>1,4</sup>, Márk Molnár<sup>1,5</sup>  
<sup>1</sup>Hungarian Academy of Sciences, Research Centre for Natural Sciences, Institute of Cognitive Neuroscience and Psychology, Budapest, Hungary; <sup>2</sup>Budapest University of Technology and Economics, Department of Cognitive Science, Budapest, Hungary; <sup>3</sup>Eötvös Loránd University, Department of Cognitive Science, Budapest, Hungary; <sup>4</sup>Pázmány Péter Catholic University, Faculty of Information Technology, Budapest, Hungary; <sup>5</sup>Eötvös Loránd University, Institute of Psychology, Budapest, Hungary
