Erasmus Officer,
Department of International Relations
University of Medicine and Pharmacy of Targu Mures
Romania

Budapest, April 3, 2014

Dear Madam/Sir:

This is to certify that Mr. István Mihály is invited by me to work in my neurobiology laboratory as a Visiting Student for a period of approximately three months, starting on the 1st of July 2014 and ending on the 30th of September.

Mr. Mihály studies at the University of Medicine and Pharmacy of Targu Mures. His special interest is neuroscience. In terms of his Erasmus program, Mr Mihály will visit our laboratory and will perform experiments in Budapest, which aim to uncover the molecular and physiological details of synaptic endocannabinoid signaling. Besides its scientific importance, this exchange program will also help Mr Mihály to learn new techniques and concepts in our laboratory, which he can use during his future medical and scientific carrier.

Sincerely,

István Katona, PhD
Professor and Chair
Molecular and Developmental Neurobiology
