Dear Competitors! Dear Movie-goers!

This year the International Student Film Festival FfeST has reached its 6th edition. This is a unique project in Transylvania, being the result of the cooperation between three universities from Cluj, each of them having a film or a video art school: the Babeş-Bolyai University, the Sapientia Hungarian University of Transylvania and the University of Art and Design.

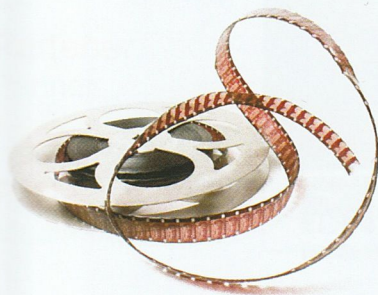

Over the last years, thanks to the excellent collaboration of the three universities and to the financial support provided by the National Centre for Cinematography, the festival has grown significantly and became one of the most important student film festivals in Romania. Our goal is to become an important and recognized film festival for students in the whole world.

As the new director of the festival, I would like to thank to all those people who have been working over the years on this project and made possible the growth of the festival.

At the same time, I would like to extend my thanks to the National Centre for Cinematography for the financial support. Finally, I would like to wish good luck for those whose films compete in the festival. I hope everyone will have a good time and I wish all the spectators an excellent festival! For those visiting Cluj for the first time, I hope they will have a pleasant stay in our beautiful city.

Let the FfeST start, let the show begin!
