Defend3R5,

Thank you for your participation in what was surely our best European Cyber 9/12 Student Challenge to date! Your hard work and preparation did not go unnoticed and it's been a pleasure to get to know you all—even if it was primarily over emails and team submissions. Please do not hesitate to reach out to Anni, Radostina (both cc'd) or I should you have any questions about competition materials or our upcoming competition in Sydney, Australia (September 28-29), as it's always great to see familiar faces! The livestream of the competition was eventually recorded and is currently undergoing edits. It should be complete in the near future and we'll be sure to share it with you all, so keep an eye on your inbox.

Attached you will find scanned copies of your team's scorecards. If your team advanced to the Semifinal or Final rounds, you will notice a SF (semifinal) or F (final) on the upper left corner of the scorecard to signify which round it is from.

Finally, I'm going to ask a little favor. As you all know, the Cyber 9/12 Student Challenge is a growing competition and we are always interested in your feedback and looking to find ways to improve. Below, you will see a link to a short **anonymous** survey. Please let us know what you thought about not just the competition, but also its preparation. Thank you in advance! J
