

Table of Contents

Intelligent Transportation Systems (ITS)	
Transport Activity Costs in the Aspect of Applied Information Technology	1
<i>Sebastian Kot</i>	
Traffic Impact for Breadth-First Search-Based Remaining Range Prediction for Electric Vehicle: an analysis on Paris and suburbs ways.....	7
<i>Uzunova Milka, Rositsa Velichkova and Abdel-Moumen Darcherif</i>	
Traffic Control In View Of Advanced Features Of Traffic Flow Using Intelligent Transport Systems In The Region.....	13
<i>Alexander Novikov, Ivan Novikov, Andrei Katunin and Anastasiya Shevtsova</i>	
Development of Sustainable Urban Mobility Planning for City of Krakow.....	19
<i>Maciej Michnej and Tomasz Zwoliński</i>	
Monitoring Performances in Public Transport Systems: a Design Methodology.....	25
<i>Filippo Benvenuti, Claudia Diamantini and Domenico Potena</i>	
Revealing correspondences between bikers' mobility and information management attributes.....	31
<i>Dávid Földes and Csaba Csiszár</i>	
Concept of mobile application aiding electromobility.....	37
<i>Gábor Pauer and Csaba Csiszár</i>	
A size adaptable transportation system.....	43
<i>Madeleine El-Zaher, Xiaolin Song and Aicha Sekhari</i>	
Dynamic Road Lane Management: Driver's Real Time Acceptability and Usability Evaluation Tool.....	49
<i>Bertrand David, Rene Chalon, Chen Wang and Bertin Nayo</i>	
Risk and costs evaluation in intermodal transport – variance analyze of using cargo positioning and parameters monitoring systems.....	55
<i>Augustyn Lorenc and Małgorzata Kuźnar</i>	
Application of Vehicle's Weigh-In-Motion Systems to Enforcement.....	61
<i>Piotr Burnos, Janusz Gajda and Ryszard Sroka</i>	
Determination of best routes in public transport.....	67
<i>Azad Derakhshan and Dilay Celebi</i>	
Hybrid Sensor Behavioural Anomalies Detection by Using Algorithm MTS	73
<i>Yasmin Barzaj, Stéphane Espié and Jean-Michel Douin</i>	
Management of Transport Systems during International Mega Events: a Case Study of World Youth Day 2016.....	79
<i>Anton Pashkevich, Irina Makarova, Rifat Khabibullin, Eduard Belyaev, Vadim Mavrin and Eduard Mukhametdinov</i>	

Preliminary study on stakeholders' needs and requirements in the development of a traceability system for road transport of crude oil	87
<i>Mohamed Haykal Ammar, Mounir Benaissa and Habib Chabchoub</i>	
Comparative analysis of electronic freight exchanges	93
<i>Piotr Kisielewski</i>	
Logistics Supply Chain Management (LSCM)	
Modelling dimensions of quality assessment of logistics services in road refrigerated transport	99
<i>Teresa Gajewska and Ludmiła Filina-Dawidowicz</i>	
A Simulation Method of Calculating the Real-time Traffic Volume for a Container Terminal Considering the Stochastic Vessels Arrival Time	105
<i>Yun Peng, Wenyuan Wang, Xiangqun Song, Qi Zhang, Zhongya Chen and zijian Guo</i>	
Traffic Capacity of Signalized Intersection of Evacuation Roads Considering Impact of Container Trucks.....	111
<i>Wenyuan Wang, Yun Peng, Qi Zhang, Hanqing Liu and Zijian Guo</i>	
The use of computer simulation to model the supply chain	117
<i>Tomasz Wiśniewski and Agnieszka Matuszczak</i>	
Increasing Safety by Methods and Ways to Prevent Failure in Marine Equipment	123
<i>Jerzy Herdzik</i>	
Assessment of the impact of products classification methods onto the efficiency of order picking process.....	129
<i>Augustyn Lorenc, Ilona Jacyna-Golda and Andrzej Szarata</i>	
Study on reliability of a transport system using Dynamic Fault Tree and Monte Carlo Simulation	135
<i>Grzegorz Kaczor and Maciej Szkoda</i>	
Customer satisfaction in the field of comprehensive service of refrigerated containers in seaports.....	141
<i>Teresa Gajewska and Ludmiła Filina-Dawidowicz</i>	
Sustainable supplier selection criteria in the context of developing of green supply chain ..	147
<i>Blanka Tundys</i>	
Developing and testing a methodology for acquiring the logistical characteristics of shopping malls in Budapest, for city logistical solutions.....	154
<i>Bálint Mészáros, Dávid Lajos Sárdi and Krisztián Bóna</i>	
Supply Chain Security Management for Business Continuity Management	160
<i>Virgil Popa</i>	
A Method for Automatic Creation of Bidirectional Transportation Paths for AGVs in Delmia Quest	166
<i>Waldemar Małopolski</i>	

Chosen aspects of logistic controlling in automotive company	170
<i>Karolina Rybicka</i>	

Optimization and Logistics Challenges (OLC)

Efficient Control Software Design for Automated Material Handling Systems Based on a Two-Layer Architecture	176
<i>Markus Spindler, Thomas Aicher, Daniel Schütz, Birgit Vogel-Heuser and Willibald Günthner</i>	
The evaluation of classification methods of products used in storage management	182
<i>Augustyn Lorenc, Maciej Szkoda and Elżbieta Wyras</i>	
Mathematical Model for Location and Routing in Disaster Operations Management: A Case Study of Post-disaster Due to Flood	187
<i>Lorena S. Reyes-Rubiano, Andrés F. Torres-Ramos, Jairo R. Montoya-Torres and Carlos L. Quintero-Araújo</i>	
Optimal Scheduling in Home Health Care: Pharmacy-Hospital-Patient's Vehicle Routing Problem	193
<i>Liyang Xiao, Mahjoub Dridi and Amir Hajjam-El-Hassani</i>	
A Parallel Approach for Optimizing RMC Delivery Problem	199
<i>Mohamed Masoud, Sanghoon Lee and Saeid Belkasim</i>	
City's Parameters Influence on Transportation Servicing	205
<i>Andrii Galkin, Yevhen Kush and Viktor Dolia</i>	
An Approach to Modeling and Simulation of a Complex Conveyor System Based on QUEST - Case Study	211
<i>Adam Wiercioch and Waldemar Małopolski</i>	
A Genetic Programming Algorithm for the Berth and Quay Crane Allocation Problem ...	215
<i>Tamer El-Boghdadly, Mohamed Bader-El-Den and Dylan Jones</i>	
Static complexity comparison of job shop and flow shop layouts	221
<i>Zuzana Šoltysová and Vladimír Modrák</i>	
A Decision Support Model for a Berths Allocation Problem in a Container Terminal	226
<i>Lobna Kallel, Mounir Benaissa, Hichem Kamoun and Haddar boukthir</i>	

Poster Session

Determinants of applying the outsourcing in the area of maintenance of manufacturing enterprises	232
<i>Katarzyna Grondys and Paula Bajdor</i>	
The scale and effects of entrepreneurship in the sector of logistics services in Poland	237
<i>Agata Mesjasz-Lech</i>	
Entrepreneurial Networks of Small Firms - the Value of Information from Suppliers	243
<i>Piotr Tomski</i>	

Around the management of sustainable supply chain of enterprises and stakeholders – theoretical background and empirical studies	249
<i>Helena Koscielniak</i>	
Managing cold supply chain	255
<i>Anna Brzozowska, Justyna Imiolczyk, Adam Brzeszczak and Katarzyna Szymczyk</i>	
Managing of Spare Parts Supplies for Assurance of the Air Traffic Fluency	261
<i>Beata Ślusarczyk</i>	
Regional aviation transport infrastructure in Poland. On the example of Czeszochowa county.....	267
<i>Aleksander Pabian</i>	
The Environmental Benefits of Cloud Computing	273
<i>Paula Bajdor</i>	
Assessment of company return product policy in the context of triple bottom line performance - Research case of mobile phone	279
<i>Tomasz Nitkiewicz</i>	
The need of returns logistics centres creation at the Polish services market – theoretical approach based on logistics management of defective products concept.....	285
<i>Marta Starostka-Patyk and Beata Skowron-Grabowska</i>	
The Identification of Activities, Consistent with the Ecologistics, Based on the Actions Undertaken by Polish Companies.....	291
<i>Iga Kott, Marta Kadłubek and Wioletta Skibińska</i>	
The importance of a Quality Management System for transport companies	297
<i>Katarzyna Sukiennik and Jarosław Jasiński</i>	
Assessment of polycyclic aromatic hydrocarbons (PAHs) pollution in soils along transport communication routes.....	303
<i>Marzena Smol, Maria Włodarczyk-Makula and Marta Starostka-Patyk</i>	
Conceptual and IT tools for managing relations in the supply chain	309
<i>Dagmara Bubel</i>	
Logistics integration in product design - A Simulation Perspective	315
<i>Samir Ben Abdallah, Aidi Maher, Alaeddine Zouari and Aref Maalej</i>	
Development of a framework for sustainable transport capacities evaluation.....	320
<i>Ibtissem Sassi, Nadia Hamani, Abdellatif Benabdelhafid and Sami Hammami</i>	
Hybrid Approach to Optimize Reverse Logistics Network	324
<i>Zeineb Kacem, Mounir Elleuch and Mounir Benaissa</i>	
Decision support system for bed management in hospital	330
<i>Nesrine Zoghلامي, Souad Rabah and Mourad Abed</i>
