

Groningen, september 27, 2018

Dear,

Zsuzsanna Emese participates in the research program at the Hemp Design Factory since september 10th, 2018.

The Hemp Design Factory (HDF) is the innovation workshop of the research group Art & Sustainability, initiated by the Research Centres Art & Society and Biobased Economy and the company HempFlax, located in Oude Pekela. The Hemp Design Factory works together closely with local governments, businesses, students, teachers and researchers from the Hanze University of Applied Sciences. The main focus of the HDF network is open innovation, with as ultimate objective making beautiful art and design objects with renewable, regionally processed industrial hemp. We hope that in the long term this innovation workshop will stimulate employability and business activities in East Groningen and the north of the Netherlands through biobased and iconic designs.

Emese Zsuzsanna is an exchange student of the Academie Minerva, University of Applied Sciences te Groningen under the leadership of Mr. Bob Verheiden. Head of Department of Design ", **Minerva Art Academy**, Hanze University of Applied Sciences.

Visiting address: Gedempte Zuiderdiep 158, Groningen the Netherlands,
