

Institut Pythéas
Observatoire des Sciences de l'Univers
Aix-Marseille Université

Dear Tímea Kovács,

I would like to invite you to join our group (Galaxies, Etoiles et COsmologie: <https://www.lam.fr/recherche-14/galaxies-etoiles-et-cosmologie-geco/?lang=en>) at the Laboratoire d'Astrophysique de Marseille (LAM) for 1 week from July 23 to July 30 2017.

During your stay in LAM, you will be working with me and other persons in the team. As we agreed, the research will be related to the code CIGALE, used to fit the Spectral Energy Distributions of galaxies and to understand the formation and evolution of galaxies.

It is my understanding that you will be supported by your grant to cover all the expenses of your stay at LAM. We will provide you with office space and access to our laboratory and other research facilities as appropriate. You will also be able to attend all science meetings.

We look forward to your visit.

Sincerely,

Denis Burgarella
