The Annual implementation of the technology cooperation project --

“Comparative analysis between China and Hungary on ecological environment protection in the landscape development” between China and Hungary government

[The ministry of science and technology (2010) NO.178]

1 The situation of our project approval notification

The official document of our project approval was initiated in July, 2010, prompting the finished time would be June 30th, 2012. But not until April, 2011, did we get informed about the project approval. And the University of West Hungary was informed in July, 2011. Due to the delay of our project approval notification, the implementation schedule of the project would be affected.

2. The work we have done

- We have collected a lot of information. Now we are reading, dealing and studying the information. The first draft of the research paper has been writing. Professor Chen Lingfang has been published an article “Comparative analysis between China and Hungary on ecological environment protection in the landscape development” in Journal of Changchun University.
- The project members of Hungary have been arrived in Fujian province in China for 14 days for the investigation, from the 21st February to 5th March in 2012. The places that we have been investigated are Nanjing Tulou, Guanzhai Mountain in Liancheng County, and Mangrove Nature Reserve in Zhangjiang river estuary.

3. The work we plan to do

- We will publish 2 to 3 research papers, during 2012. We have published one research paper already.
- We will publish a monograph about Hungarian land use management system and ecological environment protection in 2012-2013.
- The project member of China will arrive at Hungary for the investigation during October 2012.

4. Hungarian partners

- Dr. Attila Fabian
- Prof. Dr. Andras Blaho
- Prof. Dr. Csaba Szekely
- Tarjanyine Tunde Daboczy
- Nikolett Fazekas
