Information about the Traineeship Programme

Description of the planned task:

Mr. Reizinger will apply his skills acquired during his studies in the field of research. Regarding his task he will deepen his knowledge in software development and get acquainted with more detailed techniques regarding C++, testing and automation with the help of a task from a field of industrial automation, which coincides with the specialization of the applicant at the university. With this traineeship Mr. Reizinger will fulfil his obligatory internship matching the Code of Studies of the Budapest University of Technology and Economics, which will be in this case 12 weeks.

Planned aim(s): Development of advanced software development skills, working in a project, planning work packages, communication within a team of developers, using tickets (redmine) and software repositories (git, svn).

Planned duration 3 months (min 2 months and max 5 months within an academic year)

Number of working hours per week: 38 (30-42 hours/week according to the national labour regulation for full time employees)

Planned start and end of the traineeship: from **01/06/2018** to **31/08/2018**

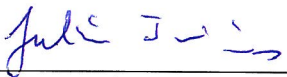

Working language(s): German

The trainee will receive a financial support for his/her traineeship: yes / no

If yes, amount per month: 511€,
resource (company, governmental, state, EU funds, scholarship, etc.):
company

The trainee will receive a contribution in kind for his/her traineeship: yes / no

If yes, please specify (scholarship, accommodation, food, public transport tickets etc.):
