

Young Researchers' International Conference on Chemistry and Chemical Engineering (YRICCCE I)

CERTIFICATE OF ATTENDANCE

The contribution "Synthesis and recycling of a highly enantioselective bifunctional cinchona-based squaramide organocatalyst" (authors: Péter Kisszékelyi, Levente Cseri, Petra Kozma, József Kupai, György Székely, Péter Huszthy) was communicated as oral presentation at the 1st edition of "Young Researchers' International Conference on Chemistry and Chemical Engineering (YRICCCE I)", held at the Faculty of Chemistry and Chemical Engineering, Cluj-Napoca, Romania between May 12th - 14th, 2016.

Organizing committee,

Prof. Dr. Anca Silvestru

Faculty of Chemistry and Chemical Engineering, 11, Arany Janos Street, RO-400028, Cluj-Napoca
