Dear PHENIXians,

We are on a roll! I am pleased to announce the acceptance of PPG223 for publication in Physical Review D. Congratulations to the PPG and IRC for making changes to the manuscript and providing responses that overcame all of the referee concerns. The resubmission files are at:

<https://www.phenix.bnl.gov/phenix/WWW/p/info/dp2/223/1resub/ppg223s1.pdf>
<https://www.phenix.bnl.gov/phenix/WWW/p/info/dp2/223/1resub/ppg223diff01.pdf>
<https://www.phenix.bnl.gov/phenix/WWW/p/info/dp2/223/1resub/1resub.txt>

Acceptingly yours, Brant

Subject: Acceptance DA12488 Aidala

Re: DA12488

Measurement of charm and bottom production from semileptonic hadron decays in p+p collisions at $\sqrt{s}=200$ GeV
by C. Aidala, Y. Akiba, M. Alfred, et al.

Dear Brant,

We are pleased to inform you that your manuscript has been accepted for publication as a Regular Article in Physical Review D. We would also like to bring the appended referee comments to your attention.

Your manuscript will now be prepared for the production process. If any issues arise we will contact you; otherwise your manuscript will be forwarded directly to our production department. Please do not send a revised manuscript or figures at this time unless requested.

Yours sincerely,

Urs M. Heller

Editor

Second Report of the Referee -- DA12488/Aidala

Thanks to the authors for answering my questions. I found the paper now has been improved and reasonable for further publication.
