

The University of Sheffield

Copy of Official Transcript

Security Information

You are viewing a PDF document (or a print out of that document) that was generated by The University of Sheffield and was downloaded by the individual named in the document from a website hosted at The University of Sheffield.

This PDF (or print) is **NOT** a secure document. It was created from the official document at time of production, but could have been tampered with since it was downloaded or printed.

Recommendation

The secure original document resides online at The University of Sheffield. The University of Sheffield provides a free and secure online service - ShARe (Sheffield Authorised Records) - for recruiters and other third parties to verify the authenticity of official documents issued to its students and/or graduates. While this service allows students and graduates to control *who* sees their information, only authorised officials of The University of Sheffield can create actual documents. This is the most secure way to verify these documents.

To use the system, you should contact the student or graduate who provided you with this document, and ask this person to log on to ShARe at <http://www.sheffield.ac.uk/ssid/record/share> and create a *Document Share* for you using the *secure email delivery* as the delivery method (you will need to provide your email address in order to allow the student/graduate to do this). The *Document Share* is a generated URL linking back to a secure website at The University of Sheffield (<http://www.sheffield.ac.uk/ssid/record/share>). The Document Share URL will be delivered directly to you by certified email from The University of Sheffield, so that you know the URL is legitimate.

When you visit the Document Share URL, you may be required to register with the ShARe system if you have not already done so. Registration is free and straightforward, and may be required by the individual named in this document in order to restrict access to their document for Data Protection reasons. Once you are registered and logged in (or if no registration was required by the student/graduate), visiting the Document Share URL will cause the document to be verified online and you can be sure you are viewing the document as it was originally issued by The University of Sheffield.

Data Protection

This document contains personal information about the individual named in it and may be subject to Data Protection laws in your jurisdiction. This information may only be used with the consent of the individual named in the document and for the purposes agreed with the individual. You may not distribute this information to a third party without the prior consent of the named person.

Further Information

For further information, please see: <http://www.sheffield.ac.uk/ssid/record/share>.
