Dear Janos Lelkes,

Thank you for submitting your extended abstract 161 titled "Bifurcation Analysis of a Forced Delay Equation for Machine Tool Vibrations" to NODYCON2019.

We are very pleased to invite you to submit a full-length paper for publication consideration in the NODYCON 2019 Special Issue of Nonlinear Dynamics.

Technical Instructions for working with Springer's style files and templates are provided in separate documents, which can be found at Information for Authors of the Nonlinear Dynamics web page at https://www.springer.com/engineering/mechanics/journal/11071?detailsPage=pltc_1888917. To submit your contribution, please use the Editorial Manager portal at <https://www.editorialmanager.com/nody/Default.aspx>.

During the submission step, please choose Article Type "S.I.: NODYCON 2019".
The submission will be open October 29, 2018.

The important dates are provided below for your convenience.

- October 26, 2018: Early bird registration deadline.
- December 14, 2018: Deadline for full-length papers submission.
- January 15, 2019: Deadline for conference registration.

We look forward to receiving your full-length paper.

Walter Lacarbonara,
NODYCON2019 Chair
