Grading at SSE

1.50 ECTS (European Credit Transfer System) credits correspond to one week of full-time studies

Grading scale: Excellent, Very Good, Good, Pass

A Grade Point Average (GPA) is calculated on all approved courses graded on the Excellent - Pass grading scale. The calculation is performed by assigning a numerical value to each grade (Excellent = 5.00 points, Very Good = 4.00, Good = 3.50, Pass = 3.00) which is then weighted by the number of credits for each course. This is done by multiplying the numerical value by the number of credits for each course and then calculating the sum total. To calculate the GPA, the total is then divided by the total number of credits achieved. Courses where the only grade granted was Pass are not calculated in the GPA. A student's GPA can vary between 3.0 and 5.0, where 5.0 is the highest.
