

**Letter of acceptance
for Erasmus+ Traineeship**

To Whom it may concern,

Hereby I certify that the following student:

Péter Pál Kalapos

Neptun code: TVMACQ

from Eötvös Loránd University, Faculty of Science, Chemistry,

is accepted to do an Erasmus+ traineeship at the following Host organisation:

Name: University of Groningen,

Address: Nijenborgh 7, 9747 AG Groningen, The Netherlands

Webpage: <https://www.rug.nl/>

Information about the Supervisor/Mentor of the Host organisation:

Name: prof. dr. ir. Adriaan J Minnaard

Position: Full professor

Contact: a.j.minnaard@rug.nl

Information about the Traineeship Programme

Description of the planned task:

The traineeship will involve training in organic synthesis and several spectroscopic techniques involved in structure elucidation of organic compounds. This will be shaped in the form of a natural product synthesis as this involves more complex, challenging, molecules. The molecule to be prepared is dissectol, a carbohydrate-terpene hybrid.

Planned aim(s):

- 1) To get skilled in regioselective oxidation, palladium –catalyzed allylic substitution and related reactions. 2) To get skilled in advanced 2D-NMR techniques. 3) To contribute to the first total synthesis of dissectol.

Planned duration: 2 months (min 2 months and max 5 months within an academic year)

Number of working hours per week: 40 (30-42 hours/week according to the national labour regulation for full time employees)

Planned start and end of the traineeship: from 2019. 06. 10 to 2019. 08. 12

Working language(s): English

The trainee will receive a financial support for his/her traineeship: yes

If yes, amount per month: we will emburse for the housing costs up to a maximum of 400 euro per month,

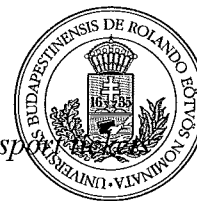

resource (company, governmental, state, EU funds, scholarship, etc.): governmental

The trainee will receive a contribution in kind for his/her traineeship: no

Erasmus+

If yes, please specify (*scholarship, accommodation, food, public transport, etc.*):
