Tárgy: ETH Student Summer Research Fellowship 2019: Congratulations!
Mellékletek: Agreement_SSRF_2019_Elekes Márton Farkas.pdf

Fontosság: Sürgős

Dear Elekes Márton Farkas,

On behalf of the committee, I am delighted to inform you that you have been ACCEPTED into the ETH Student Summer Research Fellowship program 2019. The selection has been very competitive with more than 2500 applications from around the world – congratulations!

The fellowship includes (reasonable) travel expenses to and from Zurich and a monthly stipend to cover housing and living expenses. Please note that for logistic reasons the duration of the fellowship has been set to the entire months of July and August, i.e., with a fixed starting date of July 1st and end date of August 30th. These dates cannot be changed and there is no vacation time during this period. However, as part of the program there will be various activities and the weekends offer plenty of opportunities to explore the beauty of Switzerland.

Please let us know as soon as possible, at the latest until 1st February 2019, whether you accept the fellowship by signing the agreement attached and send it to tony.joller@inf.ethz.ch.

Many thanks and best regards,
Tony Joller
