Dear Mr Gabor,

Thank you very much for your interest in REDETE conference.

It is our pleasure to inform you that our Editorial board has accepted your abstract titled "Strategic planning and management practices of startup managers."

Please find attached guideline for authors.

Furthermore, please note that you should send the final version of your paper until beginning of October 2019.

Hope to hear from you soon.

Best regards,
Milena Banjac

the 7th REDETE 2019

“New Challenges Facing Transition Economies”

Banja Luka, Bosnia and Herzegovina, October, 24-26, 2019

Call for Papers

You are welcome to send your research abstract to the **7th REDETE Conference** on entrepreneurship and economic development in transition countries which will be held on 24th – 26th October 2019 under the theme *“New challenges facing transition and emerging economies”*.

Transition and developing countries, particularly smaller ones, face many challenges that have been created by global political and economic adjustments. The world's largest economies, such as the USA and China, in order to remain competitive, frequently destruct global economic equilibrium, thus leaving little space to smaller and less developed economies to position themselves in the global market.

The aim of the **7th REDETE Conference** is to encourage researchers, as well as practitioners and policy makers to contribute to our understanding of sustainable economic growth in the context of new global challenges.

Topics of interest include:

Entrepreneurship and innovation

- new firm formation and firm dynamics
- university-industry collaboration
- academic entrepreneurship
- innovation in transition economies
- entrepreneurial and SMEs financing

Regional development

- clustering and networking
- interfirm relations
- regional innovation ecosystems
- foreign direct investments
- role of banks and financial markets
- role of infrastructure

Cohesion policy and European identity

- population and migration
- social policy, poverty and exclusion
- migrant crises and migrant inclusion
- legal systems, corruption and inequality

- EU cohesion policy

Papers from broader areas will also be taken into consideration. Abstracts and papers will be evaluated by international recognized scholars.

Selected papers from the conference will be considered for publication in the following journals:

Entrepreneurship & Regional Development
Journal of Balkan & Near Eastern Studies
The International Small Business Journal
Scienze Regionali, Italian Journal of Regional Science
Economia Marche, Journal of Applied Economics

As in previous REDETE events, leading scholars and practitioners will be invited as keynote speakers and special guests.

Submission information

Extended abstracts of about 300-500 words may be submitted up to March 2019 to the address: redete@unibl.rs.

Important dates

December 1 st 2018	-	Abstracts submission open
