To Whom It May Concern

This letter confirms that Eszter Solnay participated in the Százhalombatta Excavation Project during the 2018 season. During this time she worked with me in the pottery laboratory analysing Bronze Age ceramics from the site. She was extremely hard working and exceptionally motivated. She was able to document and record the ceramics to a high level, and to use archaeological data to address research questions in a sophisticated manner.

Please do not hesitate to contact me if you have any further questions.

Kind regards,

A handwritten signature in black ink, appearing to be 'JS', is centered below the text 'Kind regards,'.
