Certificate of involvement in scientific project

I hereby certify that Bujtár Zsófia, an Info-BionicsMSc student from the Faculty of Information Technology and Bionics of Pázmány Péter Catholic University has been working on a research project funded by the Hungarian Ministry of Innovation and Technology and ran by the University of Szeged.

Zsófi is working in a group of 12 scientists who develop an agent-based model of the spreading of COVID-19. Her focus is on parameterization of the agent specific epidemiological SEIR model in our project.

Yours sincerely,

Attila Csikász-Nagy
