Noordwijk, 26 April 2022

.....

TO WHOM IT MAY CONCERN

This is to confirm Csilla Kalup's collaborative visit to the European Space Research and Technology Centre (ESTEC) in the Netherlands.

During her four week visit, from 21 March to 14 April 2022, we worked on asteroseismic analysis of main sequence and red giant stars. Csilla performed excellent work during this period, going from no knowledge of asteroseismology of these stars to performing detailed analyses of TESS telescope data.

Yours faithfully,

Oliver Hall
ESA Research Fellow
