This is to confirm that

Gergo Katona

From: University of Public Service, Budapest, Hungary

Took part in: CASPA Seminar and Workshop at TalTech **from** 04.10.2021 **to** 08.10.2021.

Short description:

Seminar for Researchers, trainers, MA and Ph.D. students with speakers invited from public sectors, study visits and consultations at the Tallinn University of Technology on cybersecurity in the public sector in October 2021. The intensive study program combined classroom lectures, seminars discussing challenges in cybersecurity awareness raising, cyber diplomacy and cybersecurity issues in the public sector. The core of the program is based on introductory lessons from experts followed by assignments and challenges given to students which they will address in groups.

The program enables the co-creation of planned courses for the CASPA project. The focus of the assignments and challenges given to students address issues about cybersecurity competence for non-technical staff in public administrations. Consequently, the study program directly contributed to the implementation of the Taxonomy and Requirements (WP2) as well as Course design, Compatibility and Content (WP3).

Host organisation: Tallinn University of Technology, Tallinn, Estonia

Signature of the host organisation:

Agnes Kasper, Senior Lecturer, 08.10.2021
