Acceptance Notification for CMMRS 2020

Cornell, Maryland, Max Planck Pre-doctoral Research School <noreply@mpi-sws.org> Mon, Mar 30, 2020 at 4:08 PM
To: dkmisu@gmail.com

Dear Mihály Dobos-Kovács,

Thank you for applying to the Cornell, Maryland, Max Planck Pre-doctoral School 2020. After carefully reviewing your application, we are very happy to notify you that you were selected to participate in CMMRS 2020. We received many applications from highly qualified students and were able to select only the top 30% of applicants. Congratulations!

As you are well aware, COVID-19 is impacting the lives of millions worldwide, and many countries have severe travel restrictions in place. Consequently, after careful consideration, we have decided that CMMRS 2020 will take place online in its entirety. This means that all participants (including you!) will take part in all of the school's activities remotely, via the Internet.

We are working hard so that CMMRS 2020 can offer attendees the full intellectual experience of prior CMMRS', including opportunities for close interaction and networking among attendees, with doctoral students, and with faculty from the participating organizations, in addition to the technical lectures and panels. Even though the school's participants and lecturers are located in different time zones, we will make every effort to plan a program that allows most participants to attend the school's activities in real time without much inconvenience. We will also provide offline resources for participants. In the coming months, we will send you more information about the school's program and how to participate in the school effectively.

Importantly, the dates of the school remain unchanged, and we expect all participants to commit their availability from 3rd to 9th August 2020. We expect that the main events will take place between 3pm and 10pm CEST. To be able to fully participate in the event, please make sure you have a notebook or desktop computer (recent Windows or MacOS), a headset, a reliable Internet connection, and a quiet room available during those times. To ensure a place in the school, please respond with your firm commitment to participate by sending an email to <mailto:cmms@mpi-sws.org> before 10th April 2020. Obviously, since the school will be held online, you do not need to make any travel arrangements.

We look forward to e-meeting with you in August!

The Organizing Committee
Cornell, Maryland, Max Planck Pre-doctoral Research School 2020
