Contents

Preface.....	vii
Editor	ix
Contributors	xi
 Chapter 1 The Soil–Human Health–Environment Trinity	1
<i>Rattan Lal</i>	
 Chapter 2 Health of Soil, Plants, Animals, and People	13
<i>Kathi J. Kemper, Ye Xia, Jeffrey Lakritz, and Rattan Lal</i>	
 Chapter 3 Transport of Mineral Elements from Soil and Human Health.....	47
<i>Sheng Huang and Jian Feng Ma</i>	
 Chapter 4 Soils and Human Health: Communication between Soil Scientists and Health Care Providers	59
<i>David Collier and Eric C. Brevik</i>	
 Chapter 5 Soil and Cancer	81
<i>Marium Husain</i>	
 Chapter 6 Addressing Urban Mal- and Undernourishment through Sustainable Home Gardens.....	111
<i>Neeraj H. Tayal</i>	
 Chapter 7 Improving Human Health by Remediating Polluted Soils.....	129
<i>Darryl D. Siemer</i>	
 Chapter 8 Managing Soil for Global Peace by Eliminating Famines and Pandemics	143
<i>Rattan Lal</i>	
 Chapter 9 Illustrating a Disjoint in the Soil–Plant–Human Health Nexus with Potassium	159
<i>Kaushik Majumdar, T. Scott Murell, Sudarshan Dutta, Robert L. Mikkelsen, Ashwin Kotnis, Shamie Zingore, Gavin Sulewski, and Thomas Oberthür</i>	
 Chapter 10 Soil Aquaphotomics for Understanding Soil–Health Relation through Water–Light Interaction.....	197
<i>Jelena Muncan, Balkis Aouadi, Flora Vitalis, Zoltan Kovacs, and Roumiana Tsenkova</i>
