Re: DC12983

Corrections to the hadron resonance gas from lattice QCD and their effect on fluctuation-ratios at finite density
by Rene Bellwied, Claudia Ratti, Szabolcs Bors'anyi, et al.

Dear Dr. Pesznyak,

We would like to notify you that Dr. Attila Pasztor submitted this manuscript of which you are a coauthor, to be considered for publication as a Regular Article in Physical Review D. Please inform us if this is not in accordance with your wishes.

Physical Review strongly encourages all authors to provide their ORCID identifier - a persistent unique identifier produced and curated by an independent third-party organization. Use of your ORCID identifier by publishers supports automated linkages between you and your professional activities and distinguishes you from every other researcher, ensuring that you are correctly recognized for your work.

By providing your identifier, you are permitting us to publish it with your work and deposit it into Crossref, a third-party repository for publications. APS staff cannot enter or update ORCIDs because we follow ORCIDs recommended practice of requiring authors to authenticate their identifiers via ORCIDs verification process. Please provide your ORCID identifier by visiting:

<https://authors.aps.org/ack/DC12983-5b794de8ecdb0895e06952cd1d35a382cb43bc41>

If you do not have an ORCID identifier you may obtain one at <https://orcid.org/>. The process takes just a few minutes.

Yours sincerely,

Journal Services
Physical Review D
