Record of Learning and Achievement

Note the Honours Classification has been calculated in accordance with the University Regulations and is not necessarily an average of the marks shown. Honours classifications are determined by the average of the weighted marks for the individual modules which contribute to the classification. However, where the percentage mark is within three percentage points of a higher degree classification and at least half the weighted modules are in the higher classification, the higher classification shall be awarded (the Predominance Rule). If a superscripted number appears after a mark, it indicates the number of times the assessment was performed.

European Credit Transfer System (ECTS)

The normal workload for one academic year is 120 CATS points or units (Credit Accumulation and Transfer Scheme). The normal workload for one semester is 60 CATS points. Most modules have a weighting of 20 CATS points, although some subject areas also offer half modules worth 10 CATS points and double modules worth 40 CATS points.

Queen's University CATS points are converted to ECTS points by dividing by two. For example, a module with a weighting of 20 CATS points is equivalent to 10 ECTS points. A full workload for one academic year is equivalent to 60 ECTS points.

ECTS points are only awarded for modules where the student has satisfactorily completed the assessment.

A full list of modules in each subject area, and their weighting in CATS points or Units, can be found in the Course Catalogue at <https://qsiscat.qub.ac.uk>.
