Dear Colleague,

The editorial committee decided to accept your paper and publish it in issue 3/2024 of the journal. Please send me (preferably via e-mail) the final version of the paper until April 30, 2024. The form of the text shall comply with the rules: <https://www.ejournals.eu/Krakowskie-Studia-z-Historii-Panstwa-i-Prawa/menu/122/>

Below you can find reviewers' remarks. Please take them into consideration when preparing the penultimate version of the paper.

Best,

Kacper Górski

## 1. Tytuł artykułu

The first roots of the economic criminal law in Hungary: the price gouging misdemeanour

## 2. Uwagi merytoryczne\* (\*Także przestrzeganie prawa autorskiego)

The first chapter deals with the historical and economic background. It is also important to analyze some studies on the literature of Hungarian economic history. I think that the motivation of the legislator and the essence of the law can only be understood if we know the economic environment in which the law was created. The study provides a good summary of the circumstances. The goal of the second chapter is to summarize the purpose of the legislator and the structure of the Price Gouging Act. In addition to a dogmatic analysis of the law, the author also presents the opinions of the most important writers of the time. The author also deals with legal cases based on archival research. It makes the article explicitly interesting and valuable.

The structure of the essay is appropriate, helping the reader to understand the main issues of the study easily.

## 3. Uwagi językowe

The language of the study is clear and uses legal terminology correctly. The text is readable, with a high level of grammatical and grammatical correctness.

## 4. Inne uwagi

## 5. Decyzja recenzenta
