SELYE SYMPOSIUM 2023

INVITATION

Subject:

Invitation to the Selye SYMPOSIUM 2023 Conference

Date: 29 April, 2023 (Saturday) from 9.00 am.

Location: Dept. of Internal Medicine and Oncology, Semmelweis University - Main Lecture Hall
(1083 Budapest, Korányi Sándor utca 2/a)

Dear Colleagues,

I am very proud that I can invite you to the Selye SYMPOSIUM 2023 conference of the Selye János Doctoral College for Advanced Studies and the Semmelweis Ignác College for Advanced Studies.

Our institution started its operation a year and a half ago when our founder members tried to reimagine the social structure of research sites from the young researchers' perspective. What we found is a potential innovation-catalyzing opportunity by creating a supporting community based on interdisciplinary skill sharing and collective lobbying capabilities.

Our goal is to encourage the younger generation – like undergraduate and PhD students – not only to join predetermined research activities as usual but also to come up with their own innovative ideas focusing on scientific frontiers between classical research fields. To do so, we think of our institution as a sanctuary for interdisciplinary brainstorming where every thought needs to be heard and taken seriously. If a research idea within the community seems to be viable, our institution utilizes its collective resources to help it come true.

The Selye SYMPOSIUM 2023 Conference is the next huge step towards making our community not only a social network but rather an effective resource which can improve everyone's research activity via idea and skill sharing. This event means the beginning of a long-term collaboration between our members and the creation of an extended network of young researchers willing to help each other's work.

Please, let me hereby thank every guest lecturer, attendee, sponsor and Roland Kasek and his event organizing team for their contribution.

Our community would be honored if you could attend our event.

Please, see our detailed program below.

Richárd Levente Ármós, MD.
President

Selye János Doctoral College for Advanced Studies

Address: H-1085 Budapest, Üllői út 22., Hungary

SCIENTIFIC PROGRAM

09.30 Registration

09.50 Opening Ceremony

Orsolya Dohán MD., PhD.
*Department of Internal Medicine and Oncology,
Semmelweis University*

Richárd Levente Ármós, MD.
President of Selye János Doctoral College for Advanced Studies

10.40 Clinical Sciences

Prof. Gábor Varga MD., PhD
*Department of Oral Biology,
Semmelweis University*

Gabriella Rapszky, MD.
Research Officer, Selye János Doctoral College for Advanced Studies

Coffee Break and poster section

12.30 Molecular Medicine

Prof. Zoltán Benyó, MD., DSc.
*President of the Doctoral Schools,
Semmelweis University*

Orsolya Oravecz
Research Officer, Selye János Doctoral College for Advanced Studies

13.40 Lunch break and poster section

14.15 Neurobiology

Lucia Wittner, PhD, DSc.
*Research Centre for Natural Sciences,
Hungarian Academy of Sciences*

Melinda Rác
Research Officer, Selye János Doctoral College for Advanced Studies

15.15 Pharmaceutical Sciences

Prof. István Antal, PharmD., PhD., DSc.
*Faculty of Pharmacy, Department of Pharmaceutics,
Semmelweis University*

András Mándoki
Research Officer, Selye János Doctoral College for Advanced Studies

Coffee Break and poster section

SEMMELWEIS UNIVERSITY

Selye János Doctoral College for Advanced Studies

President

RICHÁRD LEVENTE ÁRMÓS, MD.

16.00 Behavioural Sciences

Júlia Füredi, PhD

Founder and Product Developer, sparq tech

Roland Kasek

Research Officer, Selye János Doctoral College for Advanced Studies

16.50 Best Poster Awards Ceremony

17.50 Presidential Conclusion

Richárd Levente Ármós, MD.

President of the Selye János Doctoral College for Advanced Studies

19.00 Gala dinner

in Selye János Doctoral College for Advanced Studies
