

To:
Head of Erasmus Training
Office, Department of
International Relations
University of Medicine, Pharmacy, Sciences and
Technology of Targu Mures Romania

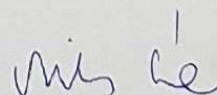

Dear Madam/Sir:

This is to certify that Ms Hanga Kelemen is invited by me to work in our Translational Behavioural Neuroscience laboratory, Budapest as a Visiting Student for a period of two months, starting on the 8th of July 2019 and ending on the 8th of September.

Ms Kelemen studies medicine at the University of Medicine, Pharmacy, Sciences and Technology of Targu Mures. In terms of her Erasmus program, Ms Kelemen will visit our laboratory and will take part in our research, which aims to understand the neurobiological background of psychopathologies and to devise effective novel treatment strategies, through a translational approach. Besides its scientific importance, this exchange program will also help Ms Kelemen to learn new techniques and concepts in our laboratory, which she can use during her future medical and scientific carrier.

Budapest, 07.03.2019

Sincerely yours,

Éva Mikics, PhD
Group Leader, Senior Research Scientist
Laboratory of Translational Behavioural Neuroscience
Institute of Experimental Medicine
Hungarian Academy of Sciences
1083 Budapest, Szigony u. 43. Hungary
