Dear Dr Orbán,

Thank you for considering Frontiers in Cardiovascular Medicine for publication of your work. Please provide a point-by-point response to reviewer feedback. We look forward to receiving your revision.

The interactive review of your manuscript "Use of a new non-contrast-enhanced BOOST cardiac MR sequence before electrical cardioversion or ablation of atrial fibrillation - A pilot study" submitted to Frontiers in Cardiovascular Medicine, section Cardiac Rhythmology has now been activated.

The reviewers recommended that you make moderate amendments to your manuscript. Please respond within the next 10 days to all comments raised by the reviewers in the online review forum. If a reviewer has finalized the review and discussion on the Reviewer tab is closed, you should submit a reply to pending comments in a new thread in the Editor tab. You can also submit a revised version of your manuscript at that time. We encourage you to submit your documents with tracked changes to highlight the revisions.

There can be more than one iteration between authors and reviewers, but only when all comments by each reviewer have been addressed successfully can the review be finalized.
