Dear Evelin and everyone from the Hungarian national group,

First of all, many thanks for your enthusiasm on this matter! It is refreshing to know that we can count on motivated young members from the Hungarian association to help echoing the LIDC work at your national level.

Please note that since our meeting in November we have set up a separate e-mail address which was just created this week to communicate on all Nex Gen matters (lidcnexgen@ligue.org). For consistency purposes and access to all members of Nex Gen, may we kindly ask to direct all future communications to this e-mail address?

We gladly received and reviewed the document you forwarded to Felipe Oquendo and myself on 1 December 2022. You are the first group of young practitioners to reach out to us and we are very impressed with your organization and goals. While we welcome your initiatives, reading the document and your questions made us realize that there is some preliminary information that could be helpful to establish the basis of our cooperation going forward. As you may know, we are a very novel group within the LIDC. Despite having considerable autonomy to develop different activities in the Ligue, we respond to the Bureau and must seek its approval depending on the projects we are working on. Since this form of cooperation is very new to all of us, we thought it best to summarise your questions and address them to the LIDC President, Christophe Rapin, to discuss them at Bureau level before getting back to you with concrete answers and action points. We have done so at the beginning of December but as you said and know, the last month of the year is always very busy and we therefore hope to get a response soon and be able to get back to you with concrete answers.

Finally, I think there may have been a small miscommunication regarding the meeting of 25 January 2023 at 12.30 pm. This is the date of our next Nex Gen meeting (not the Bureau meeting), during which we would like to invite one of you to participate with an observer status to get a feeling of how we have been doing things and the sorts of topics discussed. In order to foster other national groups' interest in and knowledge of the LIDC Nex Gen, the idea would be to invite other young members of the LIDC national groups to participate to this meeting as well.

May we therefore ask you to let us know who you would like to participate to this Teams meeting? We will then circulate the invite.

Be ensured that we will keep you informed about anything relevant in the meantime, and wish you all very very happy and healthy holidays! ☺

Best regards,

Nina
