Description of the EucA mobility experience

Title: EU project [Europeans Go Digital](#): Oxford-style Debate & Citizens' Assembly on Artificial Intelligence (AI) Duration: 8 - 10 September 2022 Venue: Thessaloniki, Greece Training hours: 21

Learning outcomes, based on [The Digital Competence Framework 2.2](#) and the Project's application form.

The highly interactive formats allowed the participant to learn better and create enthusiasm around digital civic participation, but also cohesion with fellow young Europeans and build confidence in their agency for policies on AI at local and EU levels;

1. **Confidence in their sense of agency:** The participant increased their sense of belonging and common purpose in the European integration process by advocating for change in the AI domain involving their peers and EU policymakers.
2. **Increased sense of digital ownership and civic responsibility for the EU:** The participant articulated needs, searched for data, information, and content in digital environments, accessed them and navigated between them to create policy proposals.
3. **Increased civic action and communication skills:** The participant engaged in a variety of digital technologies and intercultural collaboration formats that facilitated dialogue on AI topics.

Activities:

1. Keynotes with Hon. Eva Kaili - Vice President of the **European Parliament**, and Mr. Constantinos Tsoutsoulides - Head of the **European Parliament Office in Greece**.
2. **Oxford-style Debate:** A format involving a debate on a predetermined statement from two opposing perspectives within a formalized structure.
3. **Citizens' Assembly:** A format seeking to promote citizen participation by deliberating on a controversial issue and proposing recommendations on how to address it.
