

OFFICIAL CERTIFICATION

Through this paper we certify that Zsanett Bertók took part as an organizer in the European BEST Engineering Competition (EBEC) Challenge Budapest 2023, fulfilling the role of Topic Responsible.

EBEC Challenge Budapest 2023 was held during the period 30-31 March 2023 and organized by the Local BEST Group Budapest, at the Budapest University of Technology and Economics.

BEST, Board of European Students of Technology, is a constantly growing non-profit and non-political organization. Since 1989 we have provided communication, cooperation, and exchange opportunities for students all over Europe. 85 Local BEST Groups (LBGs) in 30 countries are building a dynamic, well-organized, powerful, young and innovative student network. Our mission is to help European students of technology become more internationally minded, by fostering a better understanding of European cultures and by developing the skills necessary to work in an international environment.

As a Topic Responsible, Zsanett Bertók was in charge of coordinating and delivering the engineering challenge tackled by participants.
