CERTIFICATE OF ACHIEVEMENT

András Béres

has completed the following course:

Prevention of Youth Radicalization Through Self-Awareness on Cognitive Biases

6 weeks, 1-2 hours per week

28/11/2021

This course explores the role that cognitive biases can play in the radicalization process and in perceiving radicalized online content. Radicalization processes and the functioning of extremist groups are discussed, as well as the basics of human cognition and information-processing. Finally, the course analyses a selection of 10 cognitive biases and examines their role in the perception of extremist content.
